QUANTITATIVE ACHIEVEMENTS

QUANTITATIVE ACHIEVEMENTS

- The territory includes more than 50 localities, only 4 have more than 10,000 inhabitants.
- The proposed target of the project implemented from November 2019 to March 2023, was 880 beneficiaries. The assistance achieved so far is 1331 participants.
- The project committed to train 380 people and so far, 662 persons have been trained and we continue to plan actions according to the demand that arises.
- Investments were planned for 380 persons and due to adequate management and interaction with other institutions, 565 persons have been assisted and we continue to work.

- Participatory evaluation of loans has been implemented, with 71 credits delivered. Several recipients have repaid their loans and accessed a second stage.
- There are 13 Local Development Committees, of which 11 have regular participation from over 100 people.
- Currently, eight institutions and enterprises have joined V.K.L and BMZ, which co-finance the project. Additionally, ten public institutions participate in the Operational Board, which is responsible for project execution.
